INTRODUCTION

Teaching is a fundamental purpose of the University of Florida and the dissemination of new knowledge in our classrooms, studios, and clinics enables our students and trainees to fully explore their intellectual boundaries. Assessment and evaluation of our courses are designed to enhance instruction and maximize learning to meet the mission of the university. This report contains the results gathered through the new GatorEvals system. Students were invited to share their feedback on the teaching and course material. We invite every faculty member to examine the analysis in the report and utilize the resources provided in the report. Thank you for your continued great work!

Chris Hass, Ph.D.
Associate Provost for Academic and Faculty Affairs

Resources to help you with this report:

1. Consult our [GatorEvals Guide](#) for interpreting and using teaching survey results.
2. [Register for Elevate](#), a new Center for Teaching Excellence (CTE) initiative to help you create a customized trajectory for professional development, focusing on growth in areas you have identified through self-reflection.
3. GatorEvals offers the ability to [opt-in to a midterm](#) evaluation. This formative feedback offers you a chance to address student insights and adjust the course before the term concludes. Reports are only available to you and are not considered part of the T&P process.
4. Register and attend a [CTE workshop](#).
5. Schedule a [consultation](#) with a CTE staff member or your internal unit to help you interpret your results and develop a course of action.
6. Visit the [CTE Resource Library](#) for additional support.

For additional information and resources in each of these question areas, please visit the GatorEvals Website at <https://gatorevals.ua.ufl.edu/resources--policies/question-set/>

Please identify the instructor's strengths that contributed to your learning in the course.

Comments
Ethan (EJ) was a wonderful T.A. this semester and I'm glad I was able to take this lab under his instruction. EJ always clearly explained the theory behind each lab and always spent our lab helping me and the other students when we had questions or needed help interpreting our experimental values. EJ was very professional and made me feel welcome asking him for help.
He explained things very well. He was very attentive to students and would do everything he could to answer students' questions about the lab experiment. He maintained a positive attitude throughout the course of the semester despite this class being super early in the morning. He also tried to memorize students' names which was very kind.
He was very reasonable with the labs and was super nice.
Ethan was a great TA for our physics lab. He was very enthusiastic about the labs and did a great job making the labs enjoyable.
He was clear in his explanations and more than eager to help us with any questions or problems we had.
LOVED EJ, he was so good at explaining things during lab. Overall a very cool and chill guy who loves physics. I think he was a great TA and very thoroughly explained our procedures which helped a lot.
Clearly explained the labs. The labs helped my understanding of the material and I thought Ethan to an amazing job explaining everything. Very helpful when we asked questions and was clear about his expectations for lab reports.
EJ did an awesome job explaining each lab to us and helping us out with any questions that we had along the way.
Very approachable and always eager to help students
Ethan was always happy to help us when it came to understanding why something might be occurring, what the value means in terms of the problem, and how to do a certain procedure. He was very knowledgeable about each of the labs that we did and always had a clear answer to our questions. I am very thankful I had him as a TA.
THE BEST LAB TA. He actually took his time to explain concepts to us when we did not understand them. He had such a positive attitude about the class and really wanted what was best for us.
